BAY ST. LOUIS, MISS., FRIDAY, AUGUST 28, 1953

Vol. 62 - No. 35

STANISLAUS COACH Farley Day discusses football plans with his only returning lettermen, left to right, Maurice Artigues, Gordon Bitterwolf and Billy Scarborough. The Rocks started practice Monday.

STANISLAUS, BAY HIGH START FOOTBALL PRACTICE FOR '53

A lack of experience showed up at both Bay High and St. Stanislaus as the two local football teams started practicing for the 1953-54 season.

The Rockchaws had three lettermen out of 26 candidates who reported to Head Coach Farley Day at the opening session Monday.

Maurice Artigues, a guard, Gordon Bitterwolf, a quarterback and Billy Scarborough an end were the returning Rocks and all look heavier than last year.

Bennie Kay Nobles has eight lettermen returning to his fold, but practice sessions for Bay won't get under full steam until school starts. "Some of my boys are still working," Nobles said. "Since we have such a late open-

ing game I told them to keep at their jobs."

Nobles feels his backfield will have the bulk of the experience. "The team will be smaller than last year," he said, "but we'll have more hustle and desire to play ball than last year."

"The line is green, but our best man will be in there helping. Kent Sellier, a junior, will handle the tackle spot most probably."

Stanislaus also will have a relatively light team this fall. The lettermen returning to his fold, but practice sessions for Bay won't get under full steam until school starts. "Some of my boys are still working," Nobles said. "Since we have such a late open-

\$332,375 Saved County People On New Budget

Taxpayers of Hancock County will save \$332,375 because of the reduction in appropriations from the Truman Budget, the Mississippi Economic Council predicted.

Mississippi taxpayers will pay \$63 million less, the Council calculated, when the national budget was sliced by \$12.6 billions.

The Council based their figuring on a national economic index which shows that Mississippi pays one-half of one per cent of the nation's tax bill.

Hancock County assumes approximately 52 per cent of the state tax bill, the Council reported.

Bay St. Louis Students and those attending other schools get a week's breather before they begin classes.

Council Is Studying Entire Zoning Problem, Scafile Says; Promises Action

The Bay St. Louis Commission Council is studying the city's entire zoning question, and promises some action soon.

Mayor John Scafile said nothing has been done yet about the highly controversial zoning ordinance now under consideration. "But we are studying the problem—the whole problem," he said, "and hope to have something in the near future."

The present ordinance concerns zoning only of the North Beach area, but there's increasing interest in zoning the entire city.

Opponents to the ordinance as it now stands are continuing to circulate a petition in hopes of getting more than half the registered voters to sign. New signatures were obtained at a meeting at the Court House last week.

Will Bay St. Louis grow?

That's the key to the city's zoning problem, New Orleans Commissioner Thomas Brahney says.

If you think the city will grow, you must have zoning. If not, you don't need it.

That was the gist of Brahney's talk to a meeting of the Property Owners Association at the Court House last week.

He came to explain zoning in general, and not to take either side in the current fight over a proposed city ordinance for zoning the North Beach area.

"I am a convert to zoning," Mr. Brahney said. "At one time, I didn't believe in it."

"But now I am for zoning or, as I prefer to call it, planning."

He admitted that it might seem to violate a man's constitutional rights when you tell him what he must do with his property. But, at the same time, the commissioner said, the property holders' right must be sacrificed to the good of the community.

One thing he warned against was haste. You can pass a zoning law quickly, he said. But if you've done wrong, you may never be able to repair the damage.

Car, Horse Claim Road

A dead horse and a battered automobile were the result of a highway accident here Sunday two miles west of the city limits on Highway 90.

Marie F. Carlson of Kenner, La. was driving her 1953 Chrysler sedan when she suddenly saw a horse standing in the road. The driver said she was going too fast to halt her car in time and struck the animal.

Patrolman Archie Fairly investigated the mishap which occurred at 1 a. m. No one was injured, although \$525 damage was done to the car.

N. O. Man Hurlled From His Car; Escapes Injury

A New Orleans man was hurled from his overturning car at the approach to the new bridge last week, but he escaped unhurt.

The man is Gilbert Lee D. Daniel of 1504 Wakefield Place, New Orleans.

He was going West on Highway 90 on the double lane stretch when his car slipped on the new asphalt, careened across the natural ground and overturned.

Highway Patrolman W. P. Kennedy and Robert Blackwell who investigated, placed the damage to the 1952 Pontiac at \$500.

Then the new president, Humphrey Kersanac and vice-president, Christopher Bell, were sworn in by the outgoing president, Gregory Favre, who presided over the inauguration. Bell was also sworn in as the new publicity chairman.

Dorothy Larroux, the new secretary-treasurer, was sworn in by Gerald Gex, the outgoing officer. Jean Favre, decorating chairman, and Anthony Loiacano, refreshment committee chairman were sworn in by Gregory Favre. Favre then made a short, but sincere speech to the new officers.

NEW ARRESTS EXPECTED SOON IN McDONALD STORE ROBBERY

Sheriff John Egloff said today that police in the area are "right on the heels" of the two uncaptured bandits who robbed W. A. McDonald & Sons last week of \$1600 worth of cigarettes.

"We know who they are," Egloff said. "We're waiting for officers in Hattiesburg and Gulfport to pick them up."

Two days after the robbery last week Sheriff Leo Byrd of Jackson County, working with Egloff, arrested Herbert Lowry of Pascagoula and recovered half of the 16 carton loot.

But Sheriff Egloff said two other men, Negroes, also were involved in the case. One he identified as Wide Newton. The other he was unable to tell to identify.

"I'm waiting to hear any minute," Egloff said in his office yesterday. One has been seen near Hattiesburg and the other in Gulfport."

The program of the league for year of 1953-54 promises to be an interesting one. Three general meetings are planned with out-of-town speakers. The study program will consist of monthly or semi-monthly meetings where the discussions will center around town planning and comprehensive zoning, and traffic hazards and how to eliminate them. Voters Service will continue its contributions to voting education.

Despite the terrible weather over the weekend, fish were caught especially, eel water fish. Fishermen are persistent and that is what it takes to be successful.

LaFrance's Fishing Camp on Campbell's Bayou near the mouth of Pearl River, had a number of skiffs out Sunday - it was raining but the speckles were biting. Al den Mauffray and Doc Elliott were among the many after the speckled beauties - they caught 49 and a large flounder during the day, Sunday.

Dr. Rucker and Party went out from Bayou Caddy aboard the Yacht Champney last week and had their usual successful fishing trip.

This boat, the Champney, can be rented at Bayou Caddy fishing Camp for parties during the week and on week ends. It is a comfortable yacht to the last inch. Get in touch with Russell Elliott or visit the camp for information.

Robert Parrish of Baton Rouge, La., left Bayou Caddy Fishing Camp over the weekend and reported catching over 400 speckles. Mr. Parrish is a real fisherman, and really knows how to get results.

Henry Better and party, members of the New Orleans Athletic Club of New Orleans made a

trip from Bayou Caddy and reported a nice catch of speckles that totaled in the hundreds.

Boys of Troop 217, coming the past few days at Fenton, had a time with the perch - they bit on the bait and took a tree to bait and a tree to bait and a tree to bait.

Al Kingston, who has strictly salt water fishermen says he has been after the green trout lately. Mixing it up last week he started making a nice catch of speckles. He also said that he caught some nice green trout last week.

It looked like old times last week to see Mr. and Mrs. Oscar Bragg and son Oscar Jr. after the perch and green trout up Pearl River. Mrs. Bragg was not bragging when she said Junior made a nice catch.

Shrimp have been running fairly well the last couple of weeks. Flounders say the water is full of them. Better get that old net out, repair it, and be ready to go after them.

Jack and Curtis Fayre were after them Sunday up Jordan River. They reported catching two reds, some speckles and a variety of fish.

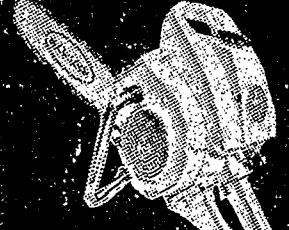

In spite of all the rain of the past few days the water in the bayous and rivers is not too bad, according to local fishermen. Pearl river is full of fish and they are biting late in the afternoon on the falling tide. Surface baits seem to be best this time of year.

You can have your reels worked over at Osoinach's Mercantile Store, according to Henry.

Son and Joe Taconi have built a locker room on their wharf on the beach front at the head of Main St., where they will be better able to accommodate their patrons seeking boats and bait.

BIG TELEPHONE MONEY SAVER at work!

Mississippians along the Memphis to New Orleans cable route saw our big cable-train digging trench, laying cable and back-filling all in one operation—saving up to 60 percent in time—and a lot of money.

Every family knows that it's important nowadays to make dollars go farther... In the telephone business, stretching dollars through every practical economy is something we've been doing for years, good times and bad.

The big cable-train shown above is an example of the kind of short-cuts we use to save important sums of money... Smaller economies, too, are made possible by time and labor-saving devices of every kind, which members of the telephone team use daily.

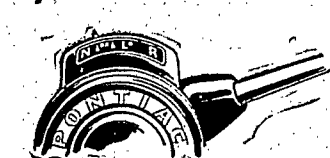

Over the months these economies—large and small—add up to big savings in our operating expense... These savings help us bring you fine telephone service at prices which make your telephone a bright spot in today's family budget.

Methodists Dedicate Piano

Services dedicating a piano, given to the Methodist Church here in memory of Mrs. W. L. Bourgeois and Mrs. E. S. Drake, were held Sunday night.

The instrument which matrons the Hammond organ in the sanctuary of the church, was presented in behalf of relatives and friends of Mrs. Bourgeois and Mrs. Drake by Mrs. C. C. McDonald. Dr. J. A. Evans made the formal acceptance address.

The Reverend C. S. Schultz conducted the dedicatory service and prayer.

A musical program opened the services. Mrs. J. B. Goldman was organist and Mrs. Carl Smith was pianist.

Library Fund Gets \$65

Contributions to the Hancock County Library this week totalled \$65, said Miss Louise Crawford, librarian.

These donations were as follows: P. E. Porter, \$10.00; American Legion Auxiliary, \$5.00; Mrs. Katherine Wilson, \$5.00; Mrs. Wilson also volunteered her services for a few days to help assemble the art books in the library's collection.

Must Register For Fish Rodeo

The widespread interest shown in the American Legion's Junior Rodeo has caused the committee to decide to require registration of all entrants.

This action will guarantee the right to fish to each boy or girl who registers in advance. Registration books will be found at the American Legion Club. No charge of any kind will be made as a requirement to fish in the rodeo, scheduled for Sept. 5.

Advance registration by contestants is not required. However, it was pointed out, failure to register in advance might mean that lack of space might keep many boys and girls from participating in the Junior Fishing Rodeo.

ALMOST READY—Latest photo of the youth and recreation center at Kila shows the building nearly ready for use. It's a building the Church of the Annunciation has wanted for a long time.

Good Neighbors Hold Party

The Good Neighbors Club of Cedar Point turned their regular monthly meeting into a Tacky Party last Monday.

The Taylor School was the scene of many colorful streamers, artistically arranged. Each table had as center piece a bowl of red carnations and fern.

The members all attended in real tacky costumes and the Judges, Chief of Police Alcine Sautier and Officer Lee found it hard to decide but finally awarded Mrs. Anderson, a newcomer, and Mrs. Oscar Bragg the prizes.

A vote of appreciation was extended the co-hostesses, Mesdames Gene Gowan and Jewel Miller, who worked so successfully to turn the school room into a real party parlor.

Refreshments consisted of home made cakes and cokes.

Attending were Mesdames Christine Netto, Sullivan Fayard, O. R. Bragg, E. G. Haro, Bernice Fayard, H. E. Bragg, Ella Hel-scher, Edna Calonia, C. L. Reab, C. G. Margaret Dicks, daughter of John and Ethel Dicks, and Major Mrs. Ernest R. Clifton, of South Marine Air Force, son of Mr. and Mrs. Ernest R. Clifton, of South Bend, Texas, were married on Thursday evening, August 20th, at a quiet and lovely wedding ceremony at the "Dicks" Waveland home. Fine shadows. Only the immediate members of the families were present.

Margaret and Ernest motored to Texas to visit with his family

and then went to New Mexico. On their return, they will be in New Orleans for several days before going to the U. S. Marine Air Force base at Cherry Point, North Carolina.

Life in the service will not be new to Margaret as she served two hitchhikes in the U. S. Navy as a Lieutenant in the Nursing Corps.

Billy Jr., and Jean Richardson were over for the weekend, visiting the Richardson Seniors, on Nicholson Avenue. Billy leaves soon for the cotton buying season in Monroe, La., so it may be three months before he and Jean come back to Waveland.

This demonstration showed me the way to a better deal!

I'd been planning to buy a higher-priced car until I found out all Chevrolet offered—and how much I could save!

You get more power on less gas
That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field - the new 115-hp. "Blue-Flame." Gear-shift models offer the advanced 108-hp "Thrift-King" engine.

And it's the lowest-priced line
A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

*Combination of Powerglide automatic transmission and 115-hp. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

Let us demonstrate all the advantages of buying a Chevrolet now!

COUNTY AGENT NEWS

By HOWARD SIMMONS

INSECTS

Cattle lice do most of their damage after cold weather sets in. However, they are on the cattle all year. Summer heat slows them down but they build up during the Fall and Winter.

The best time to control these lice, which reduce gain on fattening animals and lower milk production on dairy cattle, is in the Fall before cold weather sets in.

Make your plans now to get rid of the lice on your cattle. Do it now. It will take two or three gallons of diluted spray material to give a thorough treatment to each mature animal. In such treatment will usually give control. However, sometimes a second treatment 14 to 18 days after the first is needed.

Materials to use include DDT, Methoxychlor, toxaphene, chlordane, lindane or benzene hexachloride. For specific instructions on materials and how to use them, see your local county agent and ask for a free copy of Extension Publication 214, "Control Cattle Pests."

On milking cows, use only methoxychlor, rotenone or lindane.

Fatherhood Deferment

Deadline Aug. 25

Selective Service registrants who now have one or more children with whom they are maintaining a bona fide family relationship must have a record of their dependency status on file with their local boards before Aug. 25 if they expect to qualify for dependency deferments.

The President's Executive Order of July 11, in effect, disqualifies fatherhood, as such, as ground for deferment, unless the child (or children) was born, (or conceived) before Aug. 25, 1953.

"Unless there is evidence in the registrant's file before August 25 to show that he is a father," selective service officials said, "a local board cannot grant a III-A (dependency) deferment, for to do so would be a violation of the regulations, which have the effect of law. Proven hardship and privation is the one exception.
